"It was a blast to be riding horse through town with such cool people. Those guys got plenty friends!"

Training the horses in Waimanalo town the weeks prior to the parade was also fun. If my horse left poop in your street... I'll make it up to you. Thanks Dana and the Therapeutic Horsemanship gang including Hombre and Kona Boy.

HEADLESS HORSEMAN RETURNS

Rumor has it that the Headless Horseman will be rearing his ugly headlessness again this year. Last year, Waimanalo-Mysterious headless horseman was seen outside of the Naturally Hawaiian Gallery on Halloween day, scaring passerbys, small children and tourists.

"I looked out the window and there he was," said a resident. "He was standing right out front by one of the horses. He went in and bought one of Patrick paintings then disappeared!"

Everyone in Waimanalo was abuzz about the unusual appearance. Although the Police were notified, they did not arrive in time to apprehend him.

job was to maintain and service the lighthouses of Hawaii like Makapuu, Barber's Point, Kilauea. We also took care of smaller lights throughout the islands. 97 of them to be exact. What a great job it was, traveling to the other islands and getting to the lights was always an interesting time. Four wheel drives, at the end of breakwaters, people's back yards, all kinds of different places. We even took care of the light on top of Molokini crater rim and Lehua Rock above Ni'ihau."

"Maybe next year." the officer on the scene said. "We will certainly be looking out for him next time."
